Sharkoon

SHARKOON

"We do not follow any trends - we set them"

This is the claim the brand SHARKOON stands for with its products in the areas of gaming, modding, and storage solutions.

In the year 2004 we have been able to extend our portfolio by including new, fascinating products. Special thanks go to our developers who always commit their entire skills and inspiration for meeting even the markets most extravagant requirements by developing innovative products. So SHARKOON shows that unique design, convincing performance and affordable prices are not a contradiction in terms.

In these days high expectations and requirements are made to the acoustic performance of a modern computer. With the practically quiet operation of its numerous Silent products SHARKOON meets the growing demand in this field with, for example, a range of power supplies and a line of low-noise CPU and system coolers.

Get inspired by reading through our pages and enter the fascinating world of SHARKOON: Be part of it!

Sharkoon
more solutions

SILVATION CASE

With the brand new case architecture Sharkoon sets a new standard, regarding optimal heat dissipation. Also, the Silvation case features high quality and maximum security, without setting usability aside.

- ATX midi-tower
- aluminum frontpanel design
- frontdoor lockable
- external drive bays: 4 x 5,25'', 2 x 3,5''
- internal drive bays: 6 x 3,5''
- expansion slots: 7 full size
- multi function LC-Display
- I/O connectors: USB2.0 and IEEE1394 FireWire on top, Audio in front panel
- room for system fans: 2 x 120 mm, 1 x 80 mm
- dimensions: 510 x 205 x 558 mm (LxWxH)

UNIQUE AIR TUNNEL

The new Air Tunnel design provides effective thermal management inside the case by creating a perfect airflow between two 120 mm case fans. The Air Tunnel ensures an ideal heat dissipation from the system.

SCREWLESS HDD CAGE

Fast and easy installation of hard disk drives without any screws. Positioned below the power supply and using its fan to lead off heat from HDDs.

EASY I/O ACCESS

FireWire and USB 2.0 connectors on top of the front panel for quick and convenient connection of external devices. Front panel with integrated Audio connectors and LC-Display for system control.

OPTIONAL WINDOW KIT

Optional window kit to keep an overview of the high-tech components of the system and show some color.

CCFL STARTER KIT

Sharkoon CaseMod™ CCFLs (Cold Cathode Fluorescent Lamps) are best suited for the interior lighting of PC systems. The cathode can simply be connected to a free 4-pin plug at the power supply by using the provided inverter.

- Delivery includes: 30 cm CCFL, dual inverter (for connection of two cathodes)
- Colors: red, yellow, green, blue, purple, UV, RGB or white

CCFL 2 IN 1 KIT

Extended kit with two cathodes of the same color.

- Delivery includes: 2 x 30 cm CCFL, dual inverter
- Colors: red, yellow, green, blue, purple, UV, RGB or white

CCFL UPGRADE KIT

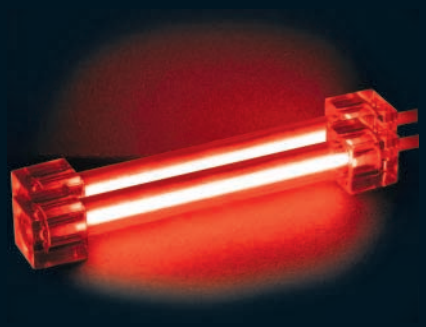
The Upgrade Kit is best in addition to our Starter Kit or as an extension of already existing systems.

- Delivery includes: 30 cm CCFL
- Colors: red, yellow, green, blue, purple, UV, RGB or white

MINI-CCFL 2 IN 1 KIT

Sharkoon CaseMod™ cold cathode fluorescent lamps in a 10 cm version create attractive light effects even in smallest corners thanks to their high luminous intensity. Kit with two cathodes of the same color.

- Delivery includes: 2 x 10 cm CCFL, dual inverter
- Colors: red, green, blue, UV or white



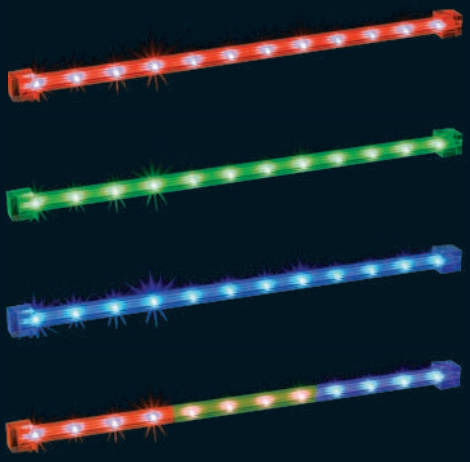
CCFL CONTROLLER

The CCFL Controller facilitates the centralised control of connected cold cathode fluorescent lamps (e.g. CCFL Starter Kit, CCFL Fans). In addition to the features “ON” and “OFF” you can set the features “Flash” (flashing of one CCFL in turn with other CCFLs) as well as “Sound sensitive” (control by means of sound). You can connect up to four CCFLs with two inverters. Connects to power supply (4-pin).

3,5" CCFL CONTROLLER

Use the 3.5" aluminum Sharkoon CCFL Controller to remain in full control of your CCFLs. Use the four illuminated control knobs to set the numerous features. (“ON”/“OFF”, brightness, sound sensitive, and flash frequency). You can connect up to four CCFLs. Connects to power supply (4-pin).

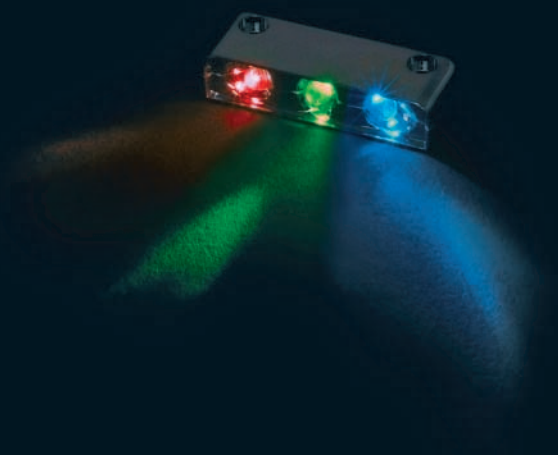
- Delivery includes: 3,5" CCFL Controller



LED FLASH LIGHT

The Sharkoon LED Flash Lights with their 12 especially bright LEDs and their controllable light effect programmes provide a wide range of exciting light effects inside the PC. An inverter is used to connect the LED Flash Light to a 4-pin plug of the power supply. You can select the light modes by using a soft-touch switch in the slot bracket provided.

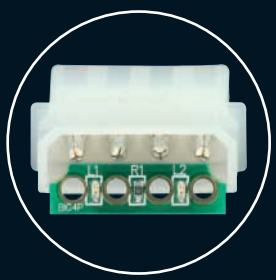
- Delivery includes: 1 LED Flash Light, dual inverter
- Colors: red, green, blue or RGB



LASER LED

Perfect disco feeling with the Laser LED, equipped with three particularly bright LEDs. Choose a suitable position on the housing, and the light show can start. Connect to power supply (4-pin).

- Delivery includes: Laser LED, screws
- Colors: blue, green, red, RGB or UV



PLUGLIGHTS

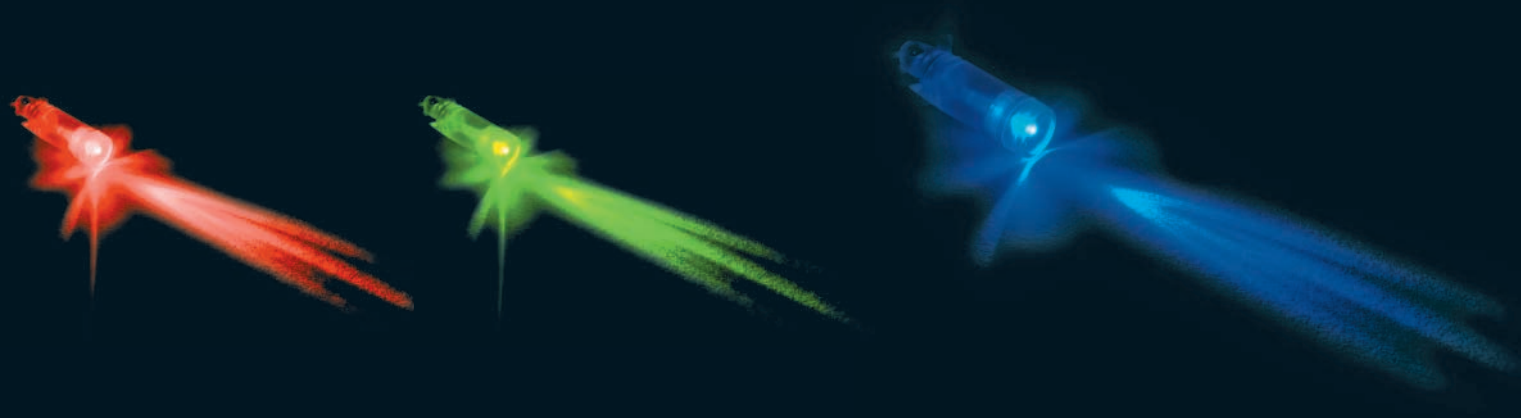
Though this mini circuit boards (Mini PCBs) are super small and mounting is unbelievably easy, it accentuates plugs and cables flashy and colorful in your PC. Just put it into a 4-pin plug, and furthermore the small lightwonder with their extra strong SMD-LEDs enable you to control the power supply of the connected devices.

- Delivery includes: 5 PCBs, 4-pin extension cable
- Colors: blue, red, blue/ red

LASER LED SPOTLIGHT

Use this Laser LED Spotlight to accentuate the high-quality components inside your PC-case. Use the flexibly adjustable ball-joint to swivel into all possible directions. Connect to power supply (4-pin).

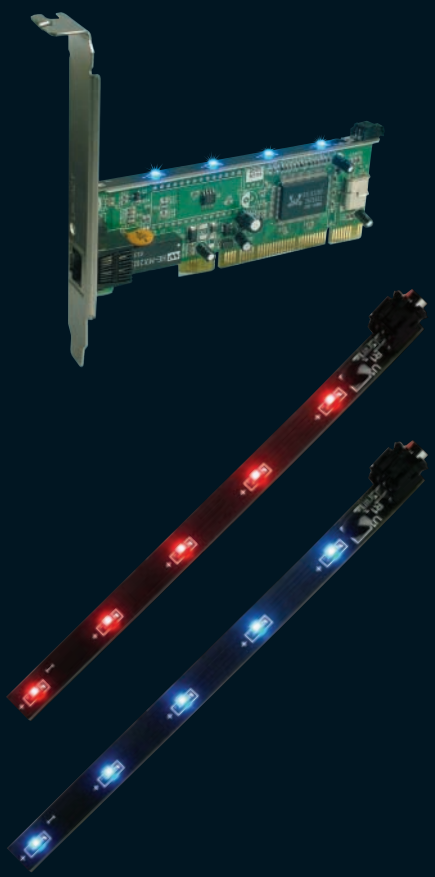
- Delivery includes: Laser LED Spotlight
- Colors: red, green or blue



LED LIGHTBAR

This all-purpose LED LIGHTBAR with five extra intensive SMD-LEDs can be located at any place in your PC, for example on memory modules, network cards, add-on cards, but also on mainboards or at the side panel of your case. You can choose between eight different light modes via soft-touch switch in the slot bracket provided.

- Delivery includes: LED Lightbar, adhesive strips, slot bracket with soft-touch switch (optionally expensible up to four lightbars)
- Colors: blue, red



ACRYLIC SHOWCASE

Designed mainly for demonstration and showroom applications the Sharkoon Acrylic Showcase is ideal for presenting all illuminated and fluorescent CaseMod™ products. The housing provides ample space, first-class workmanship and finish and is fully operative. It is exclusively supplied as DIY-kit.
Please note that the case has been designed for presentation and show purposes and therefore does not comply with EMI standards.

- 4x 5,25", 7x 3,5" bays, space for 7 extension slots and 5 fans (80 mm)
- Delivery includes: case-kit with mounting material, cotton gloves and instructions

UVR ACRYLIC SHOWCASE

The Sharkoon UVR Acrylic Showcase is made of UV-reactive material and is therefore ideal for using it in combination with the UV-light products of the Sharkoon CaseMod™ line.
Please note that the case has been designed for presentation and show purposes and therefore does not comply with EMI standards.

- 4x 5,25", 7x 3,5" slots, room for 7 extension cards and 5 fans (80 mm)
- Delivery includes: case-kit with mounting material, cotton gloves and instructions

THUMBSCREWS

Thumbscrews replace the standard housing screws. Whether housing side parts or additional cards - the handling gets much easier. The screws, made of anodized aluminum, do not only allow you to open the case in a convenient way without screwdriver - they give it a distinguished touch as well.

- Set with 4 screws
- Colors: red, silver, gold, blue or black

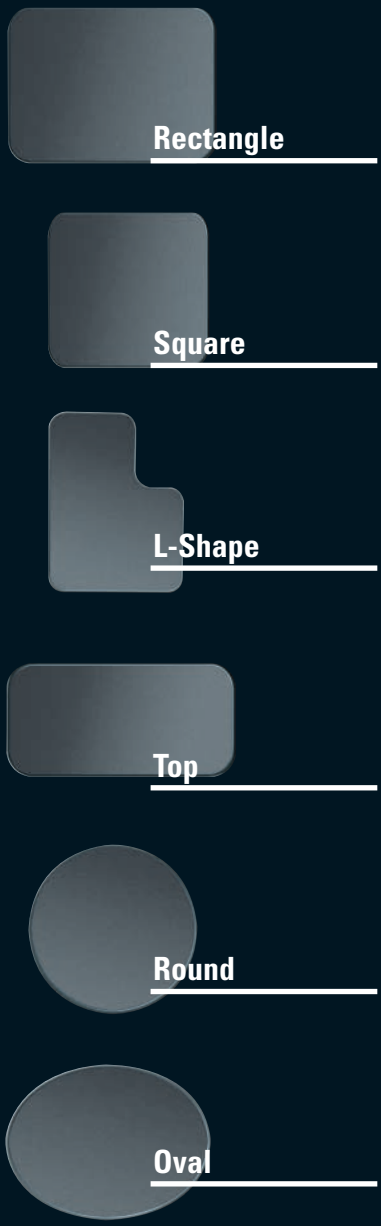
WINDOW-KIT

In a way, Window-Kits are the start of every case-modder career. These panels are a must for every case-modder! Depending on your housing and your individual taste you can provide yourself and others an insight into the interior of your case by choosing one of the various shapes. Keep an overview of your high-tech components and show some color.

- Available in the following shapes:

Rectangle	285 x 220 mm
Square	280 x 280 mm
L-Shape	336 x 444 - 120 x 180 mm
Top	380 x 140 mm
Round	285 mm
Oval	330 x 250 mm

- Delivery includes: acrylic window, molding, mounting instructions



WINDOW-KIT STICKER

These stickers are decorative elements that go along with every Window Kit. They are available in a range of designs. Certainly they can be used on many other surfaces as well. The silver colored-metallic coating makes the stickers gleam and glisten.

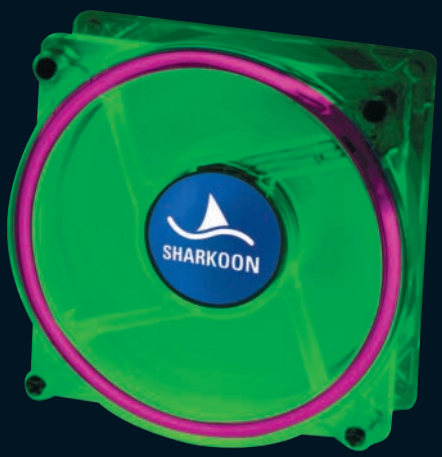
- Dimensions: ca. 160 x 160 mm

CCFL FAN

CCFL Fans are transparent case fans equipped with a pre-mounted round CCFL. The fan may either be connected using the power supply (4-pin) or the main-board (3-pin). You can use the 3-pin plug to read out the speed signal.

- 80 x 80 x 25 mm* / 28 dB(A) / 2700 rpm
- Delivery includes: fan with mounted CCFL, dual inverter, self-adhesive Velcro strips, screws
- Colors: red, green or blue

* with mounted cathode: app. 89x89x33,5 mm



UV CCFL FAN

UV CCFL Fans are made of high-quality UV-reactive material and are assembled with a round UV CCFL. During operation the entire fan will appear bathed in light, displaying fascinating effects. Connect to the power supply (4-pin) or the main-board (3-pin). By using the 3-pin plug the readout of the speed signal is possible.

- 80 x 80 x 25 mm* / 28 dB(A) / 2700 rpm
- Delivery includes: UV fan with mounted CCFL, dual inverter, self-adhesive Velcro strips, screws
- Colors: UV-red, UV-green or UV-blue

* with mounted cathode: app. 89x89x33,5 mm

UV REACTIVE FAN

UV Reactive Fans are made of transparently dyed material and react when exposed to UV light. Connect to power supply (4-pin).

- 80 x 80 x 25 mm / 24 dB(A) / 2000 rpm
- Delivery includes: fan, screws
- Colors: red or blue

UV REACTIVE LED FAN

The UV-reactive LED Casefans are made of transparent material, which reacts with UV light. Additionally, three LEDs illuminate the fans and provide a special glowing-effect.

- 80 x 80 x 25 mm / 24 dB(A) / 2000 U/min.
- Delivery includes: fan, screws
- Color: red, green or blue

LED FAN

CaseMod™ LED Fans are equipped with especially bright LEDs. Irradiating the transparent fan blades will produce extraordinary light effects during operation. A ceramic slide bearing ensures smooth operation and longevity. Optionally available as temperature-controlled model. Connect to mainboard (3-pin).

- Available models:

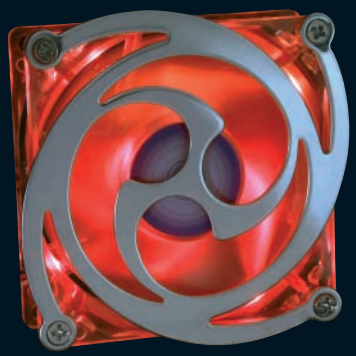
Standard	80 x 80 x 25 mm	32 dB(A)	2400 rpm
Temperature-controlled	80 x 80 x 25 mm	20-32 dB(A)	1600-2400 rpm
Low Noise 120 mm	120 x 120 x 25 mm	21 dB(A)	1000 rpm

- Delivery includes: LED fan, screws
- Colors 80 mm: red, blue or RGB
- Color 120 mm: blue

STROBE FAN

With the Strobe Fan you can set the stroboscopic flashlight effects you desire. With the provided control box you can set the flash frequency and the fan speed. Connect to power supply (4-pin). Use the 3-pin plug to read out the speed signal.

- 80 x 80 x 25 mm / 27,4 dB(A) / 2500 rpm
- Delivery includes: fan, screws, control box
- Color: red or blue



LASER-CUT FAN GRILL

The Laser-Cut Fan Grills are made of stainless steel and are compatible with any 80 mm fan. They are most striking when installed with fans located at the side panel of the case. Also available as 120 x 120 mm version: Blade, Biohazard, CS, Game, Radiation (*).

- Suited for 80 mm fans
- Delivery includes: Fan Grill, screws

Alien

Atomic

Blade*

Biohazard*

CS*

Game*

Scorpion

Scream

Skull

Soccer

Radiation*

Turbine

UV REACTIVE FAN GRILL

The UV-reactive fan grills are made of dyed, transparent material and will react when exposed to UV-light.

- Suited for 80 mm fans
- Delivery includes: Fan Grill, screws
- Color: green or blue

Atomic

Beauty

Biohazard

CS

Flame

Game

Life

Rocket

Scream

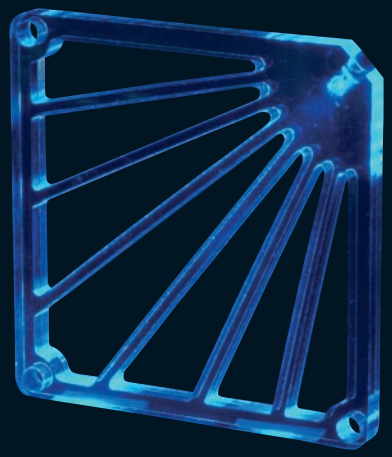
Skull

Spider

LED FAN GRILL

LED Fan Grills, made of acrylic, are equipped with one bright LED. They use optical refraction to produce fascinating visual effects. Connect to power supply (4-pin).

- Suited for 80 mm fans
- Delivery includes: Fan Grill, screws
- Colors: blue or RGB



EL-TAPE

Unlimited modding fun with EL-Tapes. The self-adhesive luminous tape is extremely flexible and may be applied to modify both, the inside and the outside of the case. There are no limits to your imagination! Connect the tape via inverter to power supply (4-pin).

- Delivery includes: 1.5 m EL-Tape (1 cm wide), dual inverter
- Colors: red, green, yellow or blue

NEONSTRING

For unique modification and outlining of your case or front panel. Thanks to their high flexibility and their extremely high level of luminosity, Neonstrings produce fascinating light effects. Connect the string via inverter to power supply (4-pin).

- Delivery includes: 1.5 m Neonstring, dual inverter
- Colors: red, green, yellow, blue or aqua

SYSTEM FAN

System Fans are available in a range of models designed to suit various applications. The fans feature high power (Power) and low noise operation (Silent). Connect 80 mm fans via main board (3-pin) and connect 120 mm fans to power supply (4-pin).

- Available range of models:

Standard	80 x 80 x 25 mm	27,4 dB(A)	2500 rpm
Temperature-controlled	80 x 80 x 25 mm	15,7-27,4 dB(A)	1700-2500 rpm
Power	120 x 120 x 25 mm	39 dB(A)	2400 rpm
Silent	120 x 120 x 25 mm	21 dB(A)	1000 rpm

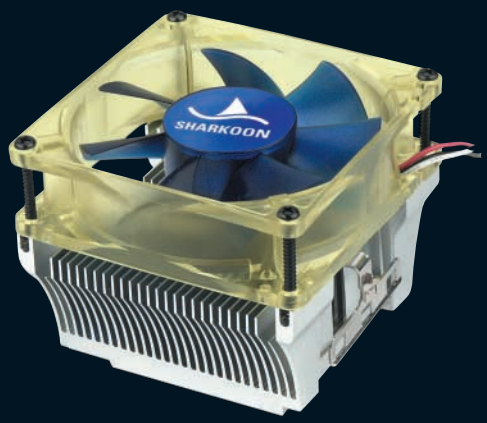
SILENT FAN SL1 - 3

The fans of our silent series are equipped with ball bearings to ensure especially quiet operation in combination with efficient fan capacities. Whether as case fan or mounted on a heatsink - all our SL fans are equipped with a potentiometer for an adjustable motor speed to meet your requirements. Rubber bolts are used instead of screws to ensure nearly noiseless operation. Connect to mainboard (3-pin).

- Delivery includes: fan, potentiometer with slot bracket, rubber bolts
- Available in following versions:

SL1 Low Noise	80 x 80 x 25 mm	15,5-27 dB(A)	1300-3000 rpm
SL2 Silent	80 x 80 x 25 mm	15,1-22 dB(A)	1100-2500 rpm
SL3 Ultra Silent	80 x 80 x 25 mm	14,9-18,5 dB(A)	1000-2000 rpm

CPU-COOLING-KIT CUS3



CPU cooler made of aluminum and equipped with sunk-in copper core for socket A CPUs in attractive price-performance ratio. Delivered with SL2 Silent Fan already mounted.

- 80 x 80 x 65 mm / 22 dB(A) / 2500 rpm
- Suited for: AMD Athlon™ XP 3200+ and AMD Duron™ 1800 and higher
- Delivery includes: heatsink, fan, thermal compound

CPU-COOLING-KIT HPS1

The particularly low-noise CPU Cooler HPS1 is equipped with a copper heatpipe as well as with 33 aluminum cooling fins to provide ideal cooling. Suitable for all current AMD socket A processors. Delivery includes already a fan of our SL-series.

- 100 x 95 x 107 mm / 22 dB(A) / 2500 rpm
- Suited for: AMD Athlon™ XP 3200+ and AMD Duron™ 1800 and higher
- Delivery includes: heatsink, fan, thermal compound

CPU-COOLING-KIT HPS2

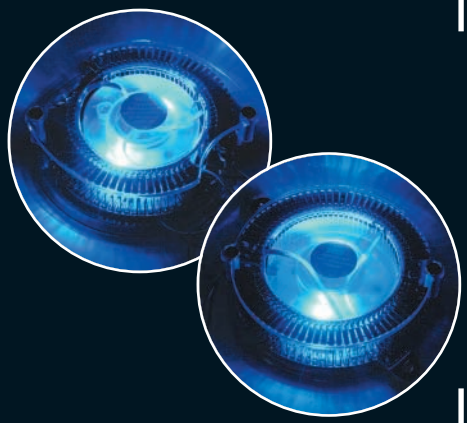
The solid pure copper heat sink with the appendant Silent Fan ensure best cooling performance. The cooling fins are soldered on the copper base plate one by one and are connected to 2 heatpipes to ensure ideal heat dissipation.

- 88 x 82 x 80 mm / 22 dB(A) / 2500 rpm
- Suited for: AMD Athlon™ XP 3200+ and AMD Duron™ 1800 and higher
- Delivery includes: heatsink, fan, thermal compound

CPU-COOLING-KIT HPS3

The HPS3 Cooler has been especially designed for the cooling of Pentium 4 processors (socket 478). As raw material of this heatsink copper with a high grade of purity is used. The heatpipe principle is applied in this model as well.

- 105 x 85 x 69 mm / 22 dB(A) / 2500 rpm
- Suited for: Intel® Pentium® 4 3200 und Intel® Celeron® 2800 and higher
- Delivery includes: heatsink, fan, thermal compound



LUMINOUS VGA-CHIPSET COOLING-KIT

The luminous VGA coolers are used for the cooling of the graphic card chips and are available in a range of two models.

SVC1:

- for: ATI Radeon™ 9000 series, nVIDIA® GeForce3™ Ti 200 & 500, GeForce4™ MX series, GeForce™ FX 5200 & 5600

SVC2:

- for: nVIDIA® GeForce™ 4Ti series, nVIDIA® GeForce™ FX 5600 Ultra

HDD COOLER

The Sharkoon HDD cooler provides efficient hard disk cooling. This enhances the longevity of your HDD and thus reduces the risk of data loss due to over-heating. Connection to power supply via 4-pin connector.

- Suited for all 3.5" hard disks
- 26 dB(A)

POWER SUPPLY 300 W

The Sharkoon 300 Watt ATX power supply is equipped with an 80 mm silent fan. In normal operation mode it is at a comfortably silent level of only 20 db(A) and provides sufficient voltage for the components installed. The power supply is equipped with passive PFC and is certified by the Technical Inspection Agency (TÜV).

- Delivery includes: power supply, power cord

POWER SUPPLY 350 W

This temperature-controlled low-noise power supply is illuminated by a 120 mm silent LED fan. The fan speed is adjustable by means of a potentiometer. Two serial ATA plugs ensure you can operate hard disks of the latest generation. The power supply is equipped with passive PFC and is certified by the Technical Inspection Agency (TÜV).

- Delivery includes: power supply, power cord

HDD VIBE-FIXER

The patented Vibe Fixer is a special mounting frame that decouples hard disk and PC case. Fixing the hard disk between strong rubber bands prevents undesired noise caused by vibration.

- Suited for mounting standard 3.5" HDDs
- for 5,25" bay

HDD VIBE-FIXER 2

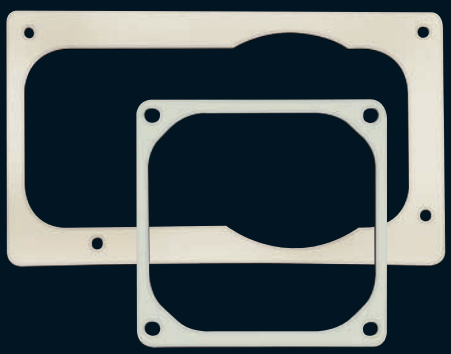
The HDD Vibe-Fixer 2 reduces the vibration caused by the hard disk and thus ensures more silent operation. It consists of two structural parts made of silicone rubber that are screwed into an empty 5.25" bay to install a 3.5" hard disk.

- Suited for mounting standard 3.5" HDDs
- for 5,25" bay

ANTI-VIBES

Use the Sharkoon Anti-Vibes to reduce undesired vibration caused by, for example, case fans. Install the pads between case and fan, resp. power supply.

- Available for 80 mm and 120 mm fans, also available for ATX power supply
- Delivery includes: pad, washer, screws

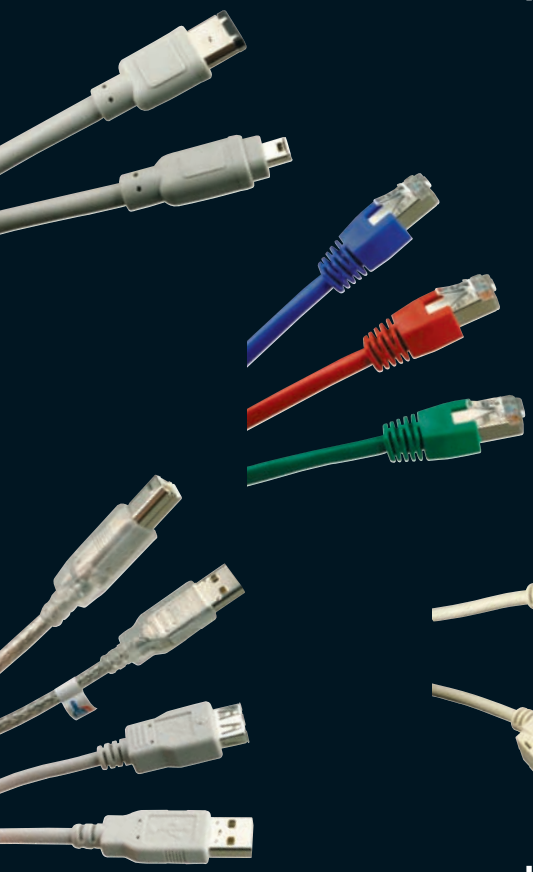


FAN ADAPTER

The Fan Adapters are needed to reduce the noise caused by fans. An 80 mm fan can be placed on a 60 mm CPU heatsink or an 80 mm fan can be replaced by a 120 mm model. Lower speed, but with the same airflow rate results in noise reduction.

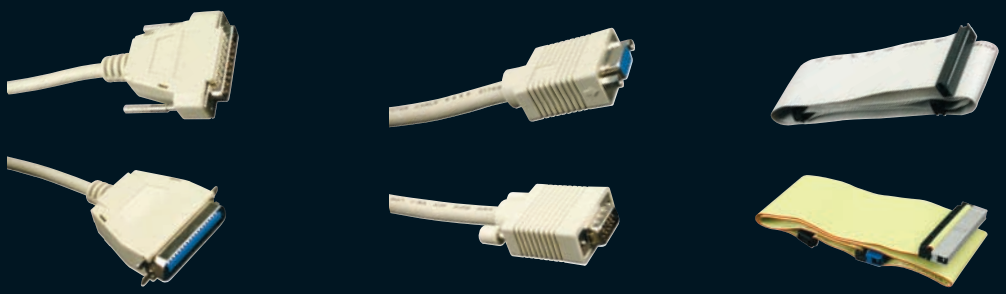
- Available as 60 to 80 mm and 80 to 120 mm version
- Colors: blue or UV-green (fluoresces green under UV-light)

CABLE ASSORTMENT

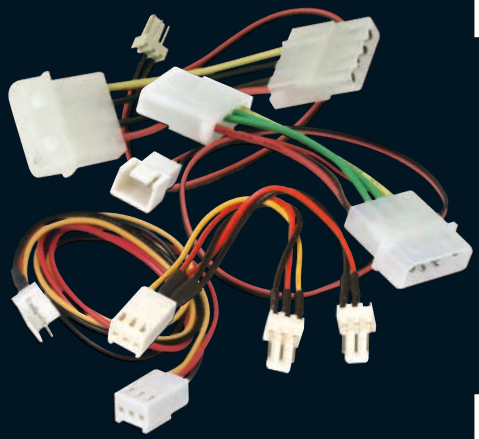


The correct cabling of the PC components is a professional task. Therefore Sharkoon is now offering a complete assortment of PC cables, besides our famous cables for modding and gaming purposes. From classic IDE ribbon cables for accurate connections of internal components, to monitor and printer cables, Sharkoon offers the lot.

More information about our extensive cable assortment at:
www.sharkoon.com



FAN CABLES



For enhanced connection options as well as for improved specific control purposes Sharkoon offers suitable cable solutions. With our adapters it is possible, for example, to limit the speed of fans or to connect two fans to one terminal.

- 3-pin extension cable
- 4-pin multi-connector cable
- 4-pin to 3-pin adapter cable
- 12 V to 7 V speed limiter
- 12 V to 9,5 V speed limiter
- 3-pin Y-splitter cable
- 4-pin Y-splitter cable

ROUNDCABLE IDE +POWER

The Sharkoon IDE Round Cable is equipped with a unique feature: In order to prevent unnecessary tangling of cords in the case the power connectors have already been integrated into the cable.

- Lengths: 45 cm, 60 cm, 90 cm
- 3 connectors, UDMA100/133 compatible

ROUNDCABLE IDE & FLOPPY

Sharkoon roundcables are available in a range of models for various applications. As the cables are flexible they are easy to lay and install. Their round shape improves air circulation significantly.

- Available in the following versions:
  - **Basic** Roundcable, basic design, with black wire mesh coat
  - **Standard** Foil shielded rounded cable with black PVC coat and separate grounding cable equipped with ring eyelet.
  - **Premium Silver** Fully shielded round cable (silver wire braiding) for highest requirements, with separate grounding wire equipped witch ring eyelet.
- Length IDE: 45 cm, 60 cm, 90 cm
- Length Floppy: 45 cm, 75 cm
- 3 connectors / UDMA100/133 compatible (IDE) / 2 connectors (floppy)

FLUORESCENT IDE-ROUNDCABLE

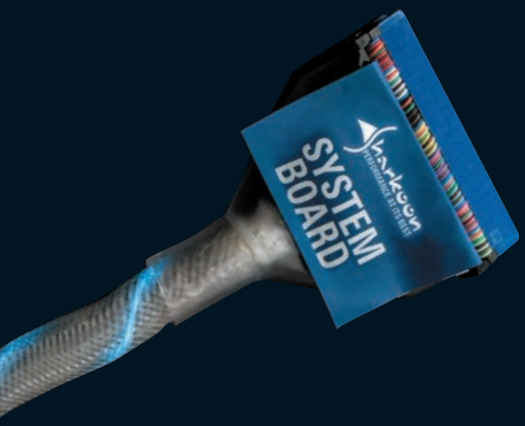
The fluorescent supplement to the Sharkoon UV products. The round cable is made of high-quality UV-reactive material. It becomes luminous and glows in corresponding color when exposed to UV-light (e.g. CCFL).

- Colors: green or blue
- Lengths: 45 cm, 60 cm, 90 cm
- 3 connectors / UDMA100/133 compatible

FLUORESCENT FLOPPY-ROUNDCABLE

The matching Floppy Roundcable is also UV-reactive.

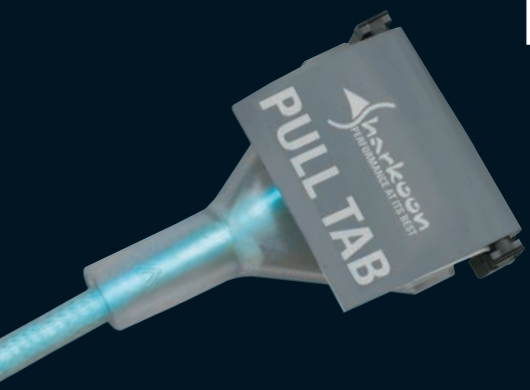
- Colors: green or blue
- Length: 45 cm
- 2 connectors



LUMINOUS IDE-ROUNDCABLE

Our patented Luminous Cable product line is a real eye-catcher: The cables are fully shielded and are equipped with an integrated neonstring that in its current version “Luminous II” will either be permanently lit or will light up when the hard disk is accessed. Connect the neonstring to the power supply (4-pin).

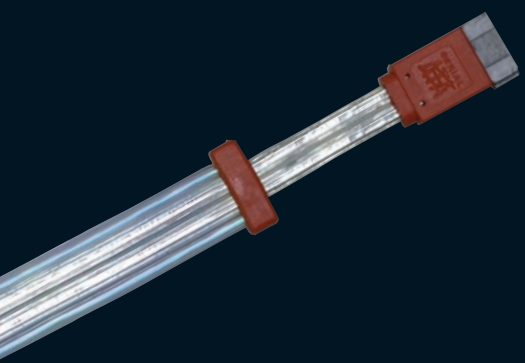
- Color of neonstring: aqua
- Lengths: 45 cm, 60 cm, 90 cm
- 3 connectors / UDMA100/133 compatible



LUMINOUS FLOPPY-ROUNDCABLE

Floppy Round Cable with luminous neonstring similar to the Luminous IDE Cable. Connect the neonstring to power supply (4-pin).

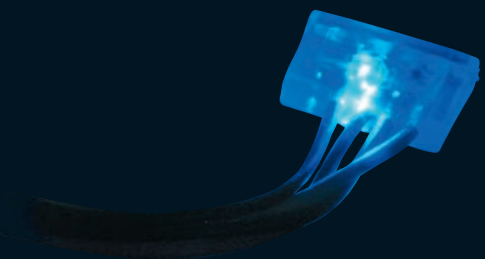
- Color of neonstring: aqua
- Length: 45 cm
- 2 connectors



LUMINOUS SATA CABLE

Shielded SATA cable with two integrated, parallel neonstrings that are connected to the power supply (4-pin).

- Color of neonstring: aqua
- Length: 75 cm
- 2 connectors



LUMINOUS SATA POWER ADAPTER

With the help of this blue luminous Power Adapter a Serial-ATA-HDD can be connected to a 5,25" power connector.

LUMINOUS USB ADAPTER

For the extension of cables u can use these USB adapter.

- Available versions:
  USB adapter for plugging A to A
  USB adapter for plugging B to B

LUMINOUS USB CABLE

Use the luminous USB Cables and identification of cables related to the various devices will become absolutely easy: The plugs are equipped with bright LEDs that provide wonderful light effects on top.

- Colors: red, orange, yellow, green or blue
- Suited for all USB 1.1 devices
- Connector A/ Connector B
- Length: 2 m

LUMINOUS FIREWIRE CABLE

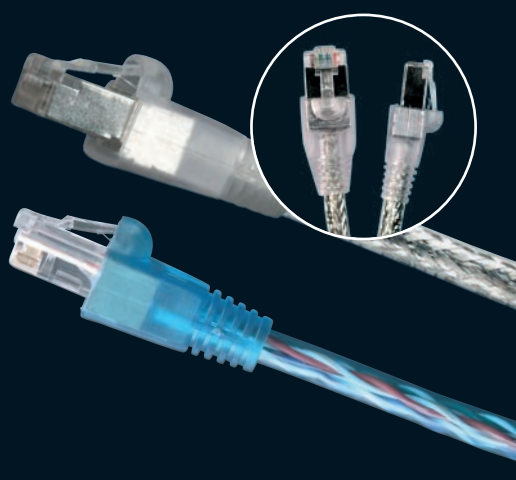
Finding the right devices even in the dark: The Luminous Firewire Cables will do. The transparent 6-pin plugs are equipped with LEDs that greatly simplify the identification of cables and connected devices. Available in a range of five colors.

- Colors: red, orange, yellow, green or blue
- Suited for all firewire peripherals
- Length: 2 m

GAMER PATCH CABLE CAT.5e

The Patch Cables with their patented ClipForce RJ45 plugs have been especially designed for gamers. The ClipForce technology applied will prevent the cable plug from accidentally slipping out of the terminal bush. The clip used is kept locked by a spring and a plastic cap protects the clips against breaking.

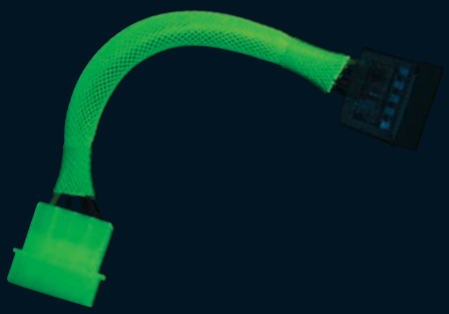
- Available designs: Premium Silver (Sharkoon silver wire braiding)
  or Crystal Blue
- Lengths: 1 m, 3 m, 5 m, 10 m



UVR SATA CABLE

The new uv-reactive SATA cables have been designed for high speed data transmission. Due to their compact size they allow best possible airflow. (4-pin connector.)

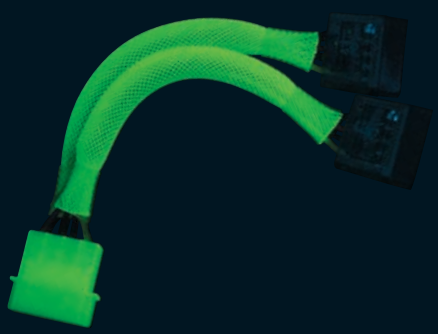
- Colors: fluorescent blue and fluorescent yellow
- Lengths: 50 cm, 100 cm
- 2 devices



UVR SATA POWER ADAPTER

This UV reactive adapter enables the use of a serial ATA hard disk plugged to a 5.25" power connector.

- Color: fluorescent yellow



UVR SATA Y POWER ADAPTER

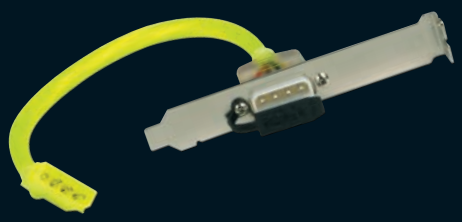
With the y-version you can run two hdds on one connector.

- Color: fluorescent yellow

UVR 4-PIN POWERBRACKET

The power slot bezel provides an external 5.25" power connector. The slot bezel is internally connected to a 5.24" power connector, by a 30 cm long, UV reactive cable.

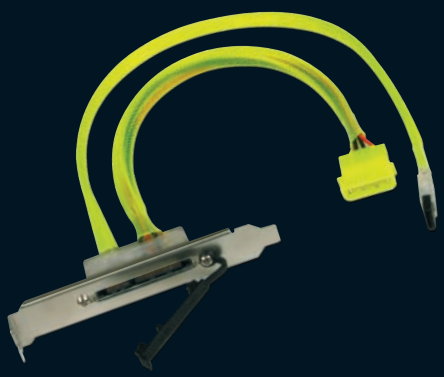
- Color: fluorescent yellow



UVR SATA BRACKET

The SATA slot bezel provides an external 5.25" power connector and an external SATA connector. The slot bezel is internally connected to a 5.25" power connector and a SATA connector, by a 30 cm long, UV reactive cable.

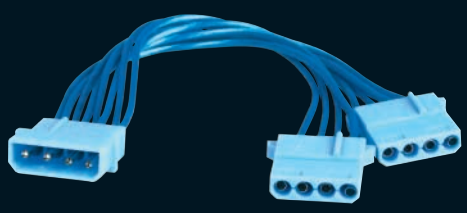
- Color: fluorescent yellow



UVR 4-PIN Y POWER KABEL

The Y-power cable provides an additional power connector for 5.25" devices. The UV-reactive cable illuminates blue in UV light and is optimally suited for modding projects.

- Color: fluorescent blue
- Length: 20 cm
- 2 devices



LUMINOUS KEYBOARD I

The Luminous Keyboard has been especially developed for gamers and creates a cool atmosphere in a room with dimmed lights. The layout corresponds to the compact design of notebooks. The blue background illumination of the entire keyboard field may be switched on and off as desired. This way you can continue working and playing at the computer even when it has become dark.

- Available in white, 89 keys
- PS/2 cable (1.8 m)

LUMINOUS KEYBOARD II

Layout and handling of the Luminous Keyboard II corresponds to a notebook keyboard with separate number block. The blue background illumination of the keyboard field can be switched on and off.

- Available in black, 105 keys
- PS/2 cable (1.8 m)

LUMINOUS KEYBOARD III

In terms of layout and size our Luminous Keyboard III corresponds to a standard keyboard with 106 keys and separate number block. The blue background illumination may be switched on and off.

- Available in black or white and as Special Edition (black keyboard with white Keys)
- PS/2 cable (1.8 m)

LUMINOUS MOUSE

The optical USB Mouse is made of acrylic and shines in a bright blue, quite in contrast to the conventional optical mice. It is equipped with 3 buttons (scroll wheel) and is perfectly suitable for both: right- and left-handed persons.

- USB cable (1.5 m)

BLUE TOUCH MOUSE

With its precise scanning by a sensor and its ideal grip because of the "baby-skin"-surface coating the new Sharkoon mouse provides current technology. The comfortable input device reaches optical perfection with the blue luminous scroll-whell and logo.

- USB cable (1.5 m)

LUMINOUS MOUSE PAD

The Luminous Mouse Pad is a perfect match to the Luminous Mouse. The edge made of transparent acrylic is illuminated by blue LEDs. The mouse pad is equipped with a non-slip coating on the back. Because of its surface structure it is ideal both for optical as well as ball-based mouse devices.

- Color: black, with transparent edge
- Size: 280 x 230 mm
- USB

USB FLEXI-DRIVE™

The USB Flexi-Drive™ has won several awards by specialist magazines and is the ideal mobile storage solution: only just as big as a key ring, weighing only 15 grams, it is immediately ready for use. Its ease of handling makes the USB Flexi-Drive™ for USB 2.0 a truly universal and indispensable companion in our digital age.

- Available in various capacities:
  USB 2.0: 1,0 GB 2,0 GB 4,0 GB
- Delivery includes: USB Flexi-Drive™, carrying strap, driver disc (for Windows 98)

USB FLEXI-DRIVE™ VALUE

With its precious outfit the USB Flexi-Drive™ Value offers new and extended features: Flexi-Drives of our Value series offer booting function and are equipped with a password feature for encoding data. In addition you can use them to send and receive emails from any computer with access to the internet.

- Available in various capacities:
  USB 2.0: 64 MB 128 MB 256 MB 512 MB 1,0 GB
- Delivery includes: USB Flexi-Drive™, carrying strap, driver CD

USB FLEXI-DRIVE™ SE

Trendy design and extremely compact dimensions are the hallmarks of our USB Flexi-Drive™ SE. The housing is made of solid rubber material, which offers sufficient protection against splash water and shocks.

- Available in various capacities:
  USB 2.0: 128 MB 256 MB 512 MB
- Delivery includes: USB Flexi-Drive™, carrying strap, driver CD

ROCKETPOD

With the RocketPod Sharkoon presents a real extraordinary storage solution: The external Hi-Speed USB 2.0 HDD case runs under Win98 (SE), ME, 2000, XP and Mac OS 9.x, OS X and is suitable for all 3.5" HDDs. Thanks to the new Stack&Play™ technology you can stack up to five RocketPods without adding further data cables. The case with its outstanding look has a Hi-Speed USB 2.0 interface, that guarantees an ultra fast data transfer (compatible to USB 1.x). The compact size (119 x 50 x 190 mm) and the solid workmanship is tactile in the solid and polished surface of the aluminum case top.

System requirements:

- Windows 98, 98SE, ME, 2000, XP or Mac OS 9.x or higher
- USB 2.0 interface (compatible to USB 1.x)
- Delivery includes: RocketPod case, USB 2.0 cable, AC adapter, connector cap, installation CD for Windows 98, manual

MEDIA READER

The Sharkoon Media Reader USB 2.0 fits with its compact size into every pocket. The small lightweight reads and writes on all current memory card formats and in the context of the launch it comes delivered with the imaging software Ulead Photo Explorer SE. As another bonus the delivery includes beneath the USB connecting cable a top-quality accessory bag that provides enough space for the Hi-Speed Media Reader and many memory cards.

- Pocket size 6 in 1 memory card reader/writer
- supports CompactFlash™, IBM Microdrive™, Smart Media™, Memory Stick™, Multimedia™ und Secure Digital Card™
- USB 2.0 interface (USB 1.0 compatible)
- Plug&Play
